Why Community Health?

With 70 exceptional staff and 100 amazing volunteers, we have made a difference every day to our clients, rural communities, and to each other. At our Centre, we demonstrate strong values with a strategic focus to reimagine how our care and services improve equitable health and well-being outcomes. And, as a team, we remain committed to co-creating a meaningful, healthy, inclusive, and compassionate workplace.

West Elgin CHC - Telling our Story

"I enjoy working at the Centre because of the autonomy in managing my own roster which allows me to follow my own clients through their lives and create meaningful connections with them. I work with a really supportive clinical team and I also work closely with our allied health staff. Offering our clients at no-cost services like physiotherapy, mental health support, diabetes support, and systems navigation allows me to provide the best client-centered care. The work-life balance is another major benefit. I enjoy good benefits and HOOPP, generous vacation and paid personal time and our leadership staff continue to advocate for fair pay across health care sectors. Overall, the combination of autonomy, support, flexibility, and generous non-monetary benefits makes this a gratifying place to work." - JJ, NP

"I did love my (NP) student placement here and now work at another CHC" - GL, NP Student

"This is a great team!!" "Wish every community had a health centre like this one" - JT, former NP

"I miss you all so much!!! I can't imagine ever having a work family like you again" - SA, former NP
