ABOUT US:

The West Elgin Community Health Centre has served our rural communities for nearly 29 years. We work alongside extraordinary people at the Centre. We are very proud to be a part of an alliance of community health centres across the province where we focus on improving the health and wellbeing of people and communities. We continue to value and advocate for a more inclusive society.

We believe that housing, education, food and the environment all play a role in health and well-being. We also believe that language, literacy and poverty should not get in the way of receiving great care.

Our team provides primary health care, illness prevention and health promotion services as well as a range of community programs primarily to the residents of Dutton Dunwich and West Elgin municipalities. Our diabetes services are open to anyone and are offered at multiple locations in Elgin County.

We strive for a healthy and supportive work environment valuing compassion, excellence, collaboration, accountability, respect and equity. Our vision supports a vibrant and caring community, people and workplace and is demonstrated by the Centre's 2021 Healthy Workplace award and 2023 CMHA recognition for workplace mental health initiatives.

Registered Nurse Diabetes Program

Full-Time Employment, 37.5 hours a week
Located in West Lorne, Ontario

As a Diabetes Program, Registered Nurse, the RN works with a Registered Dietitian to provide education and support to clients within their scope of professional practice. Services include group education sessions and individual counseling to adults with pre-diabetes, Type 1, Type 2 and gestational diabetes.

Primary Responsibilities:

- Perform a client assessment, develop a client-centred action plan, implement, evaluate and monitor the plan independently or with the Diabetes Team.
- Perform clinical assessments, develop client-focused care goals with the client, provides health education, counseling and other clinical activities.
- Work in accordance with the CNO standards of practice, policies, procedures and medical directives of the Centre.
- Participate in the development, implementation, monitoring and evaluation of treatment, education, counseling and health promotion programs and services.
- Participate in a variety of interdisciplinary practice initiatives.

What Do you Bring to the Position?

- Undergraduate degree in nursing from a recognized university or combination of nursing diploma and additional relevant training.
- Member in good standing with the CNO.
- Canadian Diabetes Educator certification *preferred (or agreement to obtain)*.
- Flexible to work in West Lorne and occasionally at the Dutton Medical Centre main office. Strong understanding of various computer programs. Experience with PS Suite EMR an asset.
- Flexibility to work evenings according to program needs.
- Verification of full Covid-19 vaccination status (minimum of 2 vaccinations) or verified medical exemption required as a condition of employment.
- Vulnerable Sector Police Check required.

The Centre is committed to a respectful, diverse, accessible and inclusive work environment. We encourage and welcome applications from persons with disabilities and a broad range of cultural, ethnic, racial and gender identities and expression. Reasonable accommodation will be provided in all phases of the recruitment process.
