

ELGIN COMMUNITY DRUG & ALCOHOL STRATEGY

The Elgin Community Drug and Alcohol Strategy (ECDAS) is inviting you to complete a survey about the local impacts of alcohol and drug use. The survey results will help ECDAS work towards “A safe and healthy community in Elgin without the negative impacts of drugs and alcohol”. The information you share will help shape a local strategy for Elgin focusing on preventing and addressing substance-use related harms in our community.

3 WAYS TO PARTICIPATE...
