ABOUT US:

The West Elgin Community Health Centre has served our rural communities for over 28 years. We work alongside extraordinary people at the Centre. We are very proud to be a part of an alliance of community health centres across the province where we focus on improving the health and wellbeing of people and communities facing barriers. We continue to value and advocate for a more inclusive society.

We believe that housing, education, food and the environment all play a role in health and well-being. We also believe that language, literacy and poverty should not get in the way of receiving great care.

Our team provides primary health care, illness prevention and health promotion services as well as a range of community programs primarily to the residents of Dutton Dunwich and West Elgin municipalities. Our diabetes services are open to anyone and are offered at multiple locations in Elgin County.
