# COVID-19 Vaccinations Update

**The West Elgin Community Health Centre has received several inquiries about public vaccination clinics through the Health Centre.**

**As of today we do not have any confirmation about public vaccination clinics. Once more information becomes known about public vaccination clinics the Health Centre will communicate through social media, our website and in the local newspaper.**

**Southwestern Public Health Unit (SWPHU) has offered COVID-19 vaccines to primary care offices who were able to provide the vaccines to their clients. The West Elgin Community Health Centre has received a small number of vaccine doses this week and has set up clinics to give the vaccine to our primary care clients (who meet the current vaccine eligibility criteria). This initiative is not a local public vaccination clinic.**

**Please do not wait to book your vaccination if you meet the vaccine eligibility criteria.**

**Call: 226-289-3560 or 1-888-333-2175 (Toll Free)  
or book online at [www.covidvaccinelm.ca](http://www.covidvaccinelm.ca)**

**to book an appointment in London, St. Thomas or Mount Brydges**
