

# DYNACARE SERVICE INTERRUPTION

Due to some staffing challenges Dynacare will not be able to provide lab services at WECHC on Wednesday and Friday mornings for the weeks of November 9, 16 and 23. They will still be open on Tuesday and Thursday afternoons.

In the event that you require fasting bloodwork, Dynacare lab at Newbury Hospital is open every morning from 8:00 am until 12 noon. If you have questions, you can call the Newbury site at 519-693-6923.

If your requisition is kept at WECHC and you want to go to Newbury Dynacare, please contact WECHC at 519-768-1715 to have the requisition faxed to Newbury.

**NOTE:** Dynacare's Newbury website states that faxed requisitions will not be available at the location until 24 hours after faxing.

Sincerely,

Dynacare Management
